IMPORTANT NOTICE TO VENDORS AND PURCHASERS

Before signing this contract you should ensure that you understand your rights and obligations, some of which are not written in this contract but are implied by law.

WARNING—SMOKE ALARMS

The owners of certain types of buildings and strata lots must have smoke alarms (or in certain cases heat alarms) installed in the building or lot in accordance with regulations under the *Environmental Planning and Assessment Act 1979*. It is an offence not to comply. It is also an offence to remove or interfere with a smoke alarm or heat alarm. Penalties apply.

WARNING—LOOSE-FILL ASBESTOS INSULATION

Before purchasing land that includes any residential premises (within the meaning of Division 1A of Part 8 of the Home Building Act 1989) built before 1985, a purchaser is strongly advised to consider the possibility that the premises may contain loose-fill asbestos insulation (within the meaning of Division 1A of Part 8 of the Home Building Act 1989). In particular, a purchaser should:

- (a) search the Register required to be maintained under Division 1A of Part 8 of the *Home Building Act* 1989, and
- (b) ask the relevant local council whether it holds any records showing that the residential premises contain loose-fill asbestos insulation.

For further information about loose-fill asbestos insulation (including areas in which residential premises have been identified as containing loose-fill asbestos insulation), contact NSW Fair Trading.

COOLING OFF PERIOD (PURCHASER'S RIGHTS)

- 1. This is the statement required by section 66X of the Conveyancing Act 1919 and applies to a contract for the sale of residential property.
- 2. EXCEPT in the circumstances listed in paragraph 3, the purchaser may rescind the contract at any time before 5 pm on—
 - (a) the tenth business day after the day on which the contract was made—in the case of an off the plan contract, or
 - (b) the fifth business day after the day on which the contract was made—in any other case.
- 3. There is NO COOLING OFF PERIOD:
 - (a) if, at or before the time the contract is made, the purchaser gives to the vendor (or the vendor's solicitor or agent) a certificate that complies with section 66W of the Act, or
 - (b) if the property is sold by public auction,
 - (c) if the contract is made on the same day as the property was offered for sale by public auction but passed in, or
 - (d) if the contract is made in consequence of the exercise of an option to purchase the property, other than an option that is void under section 66ZG of the Act.
- 4. A purchaser exercising the right to cool off by rescinding the contract will forfeit to the vendor 0.25% of the purchase price of the property. The vendor is entitled to recover the amount forfeited from any amount paid by the purchaser as a deposit under the contract and the purchaser is entitled to a refund of any balance.

DISPUTES

If you get into a dispute with the other party, the Law Society and Real Estate Institute encourage you to use informal procedures such as negotiation, independent expert appraisal, the Law Society Conveyancing Dispute Resolution Scheme or mediation (for example mediation under the Law Society Mediation Program).

AUCTIONS

Regulations made under the Property, Stock and Business Agents Act 2002 prescribe a number of conditions applying to sales by auction.

65 Guarantee (Company Purchaser)

For the purposes of this contract, "Guarantor" means the person or persons who are officers of the purchaser company and who have witnessed or signed this contract for the purchaser or who have otherwise indicated that they give this guarantee.

The Guarantor gives this guarantee and indemnity in consideration of the vendor agreeing to enter into this contract.

The Guarantor unconditionally and irrevocably guarantees to the vendor the due and punctual performance and observance by the purchaser of the purchaser's obligations under this contract.

As a separate undertaking the Guarantor unconditionally and irrevocably indemnifies the vendor against all liability or loss arising from and any expenses incurred in connection with, a breach by the purchaser of this contract. It is not necessary for the vendor to incur expense or make payment before enforcing that right of indemnity.

As a separate undertaking the Guarantor unconditionally and irrevocably indemnifies the vendor against all liability or loss arising from, and any expenses incurred in connection with, a representation or warranty by the purchaser in this contract being incorrect or misleading.

The Guarantor waives any right it has of first requiring the vendor to commence proceedings or enforce any other right against the purchaser or any other person before claiming under this guarantee and indemnity.

The liabilities of the Guarantor under this clause as a guarantor indemnifier or principal debtor and the rights of the vendor under this guarantee and indemnity are not affected by anything which might otherwise affect them at law or in equity including but not limited to, one or more of the following:

- (a) the vendor granting time or indulgence to, compounding or compromising with or releasing the purchaser;
- (b) acquiescence, delay, acts, omissions or mistakes on the part of the vendor;
- any novation of the right of the vendor; (c)
- (d) any variation of this contract, or
- (e) the validity or unenforceability of an obligation of a person other than the Guarantor.

The Guarantor may not without the consent of the vendor:

- (a) raise a set off or counterclaim available to it or the purchaser against the vendor in reduction of its liability under this guarantee and indemnity;
- (b) claim to be entitled by way of contribution, indemnity, subrogation, marshalling or otherwise to the benefit of any security or guarantee held by the vendor in connection with this contract; or
- prove in competition with the vendor if a liquidator, provisional liquidator, receiver, official manager (c) or trustee in bankruptcy is approved in respect of the purchaser or the purchaser is otherwise unable to pay the purchaser's debts when they fall due.

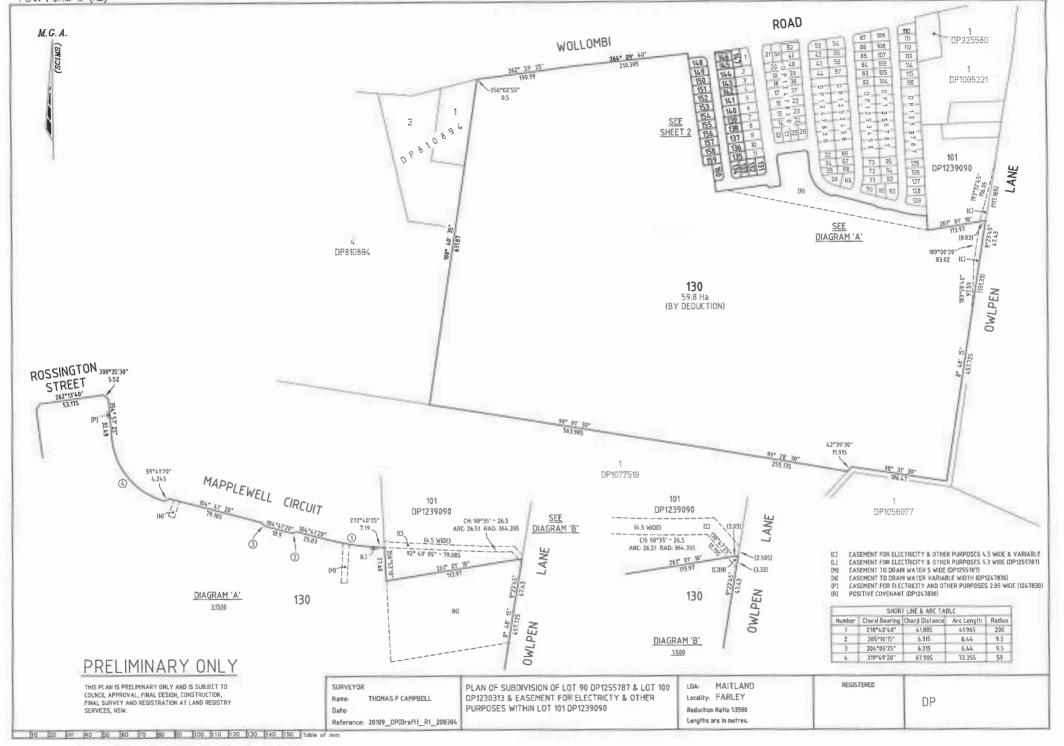

If a claim that a payment or transfer to the vendor in connection with this contract or this guarantee or indemnity is void or voidable (including, but not limited to), a claim under laws relating to liquidation, insolvency or protection of creditors) is upheld, conceded or comprised, then the vendor is entitled immediately as against the Guarantor to the rights to which it would have been entitled under this guarantee and indemnity, if the payment or transfer had not occurred.

This clause is an essential term of this contract.

If there is more than one person constituting the Guarantor then they give these covenants jointly and severally.

Neture of contribution

- The special infrastructure contribution that must be made for relevant development is: (1)
 - a monetary contribution, or
 - (a) (b) a contribution of a kind specified in a special infrastructure contribution works-in-kind agreement that is in force in relation to the relevant development (being the carrying out of works for the provision of infrastructure or the dedication or other provision of land).
- The special infrastructure contribution may comprise part of the amount of the monetary (2) contribution otherwise payable and the balance as a contribution provided by a special infrastructure contribution works-in-kind agreement.

Amount of monetary contribution

The monetary contribution that is payable as a special infrastructure contribution for a relevant development is the amount calculated by applying the contribution rate for the relevant development, as at the date of payment, to the net developable area for the development, that is, the monetary contribution is an amount calculated as follows:

\$C, = NDA x \$C,

where:

- SC. is the monetary contribution payable
- NDA is the net developable area, in hectares, for the relevant development (determined in accordance with clauses 9 to 13)
- is the amount in dollars of the contribution rate, applicable at the date of payment, for the \$C. relevant development (as provided by clauses 7 and 6).

Contribution rates

- (1) The contribution rate that is to be used in the calculation of the monitory contribution for a relevant development is the rate specified in the table to subclause (2) for development of the class to which the relevant development belongs.
- (2) Each amount specified in the table to this subclause applies to the determination of the relevant contribution rate at any time before 1 July 2011.

Table

Class of development	Contribution rate	
Development on residential land that is within the Lower Hunter Special Contributions Area (as referred to in clause 4 (1) (a))	\$105,340 per hectare of net developable area	
Development on industrial land within the Lower Hunter Special Contributions Area (as referred to in clause 4 (1) (b))	\$42,134 per hectare of net developable area	

- (3) The amounts that apply to the determination of the contribution rates at any time during the 12 month period commencing 1 July 2011, and during each subsequent 12 month period, are the amounts as adjusted in accordance with clause 8.
- 8 Annual adjustment of amounts used in contribution rates
- (1) For the purposes of this clause, each of the amounts of \$105,340 and \$42,134 specified in the table to clause 7 (2) is an adjustable amount.
- (2) On 1 July 2011 and on 1 July in each subsequent year, each adjustable amount is to be adjusted by multiplying the amount by the following fraction:

latest Sydney CPI number / 170.5

where:

latest Sydney CPI number is the Sydney CPI number for the March quarter in the year in which the adjustment is made (the March quarter being the quarter commencing on and including 1 January and ending on and including 31 March in that same year).

Note. The figure 170.5 is the Sydney CPI number for the March quarter in 2010.

- (3) If an adjustable amount, as adjusted in accordance with subclause (2), is not a multiple of \$1, the amount is to be rounded to the nearest \$1.
- 9 Net developable area
- (1) The net developable area for a relevant development is the area of land, in hectures, to which the development consent for the development relates, subject to this Determination.
- (2) The net developable area for a relevant devalopment includes the area of any land that the development consent authorises, or requires, to be used as a road, or reserved or dedicated

as a public road (other than a road referred to in subclause (3)). The net developable area does not, however, include the area of any existing road in respect of which the development consent authorises, or requires, road work (such as road widening) to be carried out.

- (3) To evoid doubt, the net developable area does not include the area of any land that the development consent authorises, or requires, to be reserved, dedicated or otherwise set aside as, or for the purpose of, any of the following:
 - (a) government school (within the meaning of the Education Act 1990),
 - (b) TAFE establishment,
 - (c) emergency services facility,
 - (d) health services facility owned or operated by a public authority,
 - (e) golf course,
 - (f) passenger transport facility
 - (g) public reserve or drainage reserve (within the meaning of the Local Government Act 1993).
 - (h) public transport corridor (other than a road corridor),
 - (i) public utility undertaking,
 - (i) bus depot, whether or not owned or operated by a public authority.
 - (k) recreation area.
 - (I) roads, or other public amenities or public services, in connection with which development contributions have been imposed under section 94 or section 94A of the Act or may be imposed in accordance with a contributions plan approved under section 94EA of the Act,
 - (m) roads or other infrastructure in connection with which special infrastructure contributions have been, or may be, imposed in accordance with this Determination.
- (4) The following areas of land are also not to be included in the calculation of the net developable area for the relevant development:
 - (a) any part of the land to which the development consent for the relevant development relates that is at or below the level of a 1:100 ARI (average recurrent interval) flood event, if that part of the land is unsuitable for the relevant development by virtue of it being at or below that level,
 - (b) any part of the land to which the development consent for the relevant development relates that is identified as public open space in a development control plan or in a contributions plan approved under section 94EA of the Act.
- 10 Net developable area where large lot created to contain an existing habitable dwelling

The net developable area for a relevant development comprising subdivision of land for the purpose only of creating a tot of more than 0.1 hectare in area to contain an existing lawful habitable dwelling is taken to be reduced by 0.1 hectare.

Note. See also clause 4 (4) (a) which provides that a SiC is not required to be made for a subdivision of land the only purpose of which is to create a lot that is no more than 0.1 hectare in area so as to contain an existing habitable dwelling.

11 Net developable area not to include any residue lot or super lot

The net developable area for a relevant development comprising subdivision of land does not include any lot that the Director-General has, having regard to relevant planning controls, certified to the consent authority is a lot that will be further subdivided in accordance with a further development consent (or approval under Part 3A of the Act) for the purpose of the orderly development of the land for urban purposes in the future.

- 12 Reduction of not developable area where land within heritage curtilage or Environmental Living Zone
- (1) This clause applies to a relevant development if any lot of land to which the development consent for the development relates includes (wholly or partly):
 - (a) land that is within the curtilage of a building listed on the State Heritage Register, or
 - (b) land that is within Zone E4 Environmental Living.
- (2) For the purpose of calculating the net developable area for a relevant development to which this clause applies, any such lot that is more than 0.1 hectare in area is taken to be 0.1 hectare.
- (3) In this clause, curtilage, in relation to a building, means the curtilage of that building, or the site of that building, as specified or described in the listing of the building on the State Heritage Register.
- 13 Final determination of net developable area by Director-General

The Director-General may make any determination required to be made for the purpose of calculating the net developable area for a relevant development in accordance with this Determination and, for that purpose, may have regard to any information available at the time, such as construction plans and any measurements made by a registered surveyor of the land concerned.

14 When a monetary contribution for development other than subdivision is to be paid

If a special infrastructure contribution is made as a monetary contribution, the monetary contribution must be paid for relevant development (other than subdivision):

- before a construction certificate is issued in relation to a building to which the development consent for the relevant development relates, and
- (b) If a construction certificate is not required for the relevant development, before any work that the development consent authorises to be carried out is physically commenced on the land.
- When a monetary contribution for subdivision (other than stratu subdivision) is to be paid

- (1) If a special infrastructure contribution for a subdivision (other than strate subdivision) is made as a monetary contribution, the monetary contribution must be paid:
 - (a) before a subdivision certificate is issued for the subdivision, or
 - (b) in accordance with clause 18 if a deferred payment arrangement is in force in relation to the monetary contribution at the time the subdivision cartificate is issued for the subdivision.
- (2) For the purpose of subclause (1) (a), if a subdivision certificate is sought for a plan of subdivision that would, on registration, create only some of the lots authorised to be created by the relevant development consent, the monetary contribution for the subdivision authorised by the development consent may be paid progressively, with an amount being paid before the issue of each subdivision certificate for a plan of subdivision authorised by that consent (a subdivision certificate for a staged subdivision).
- (3) The amount that must be paid before the issue of each subdivision certificate for a staged subdivision is to be calculated:
 - (a) as if the subdivision of land to which the subdivision certificate relates comprised the entire subdivision authorised by the development consent, and
 - (b) on the basis that the net developable area does not include the area of any "transitional lot" in the plan of subdivision for which the subdivision certificate is sought.

A "transitional lot" is a lot in the plan of subdivision for which the subdivision certificate is sought that may be further subdivided in accordance with the relevant development consent.

16 When a monetary contribution for strata subdivision is to be paid

If a special infrastructure contribution for a strata subdivision is made as a monetary contribution, the monetary contribution must be paid:

- (a) before a strata certificate for the strata subdivision is issued, or
- (b) in accordance with clause 18 if a deferred payment arrangement is in force in relation to the monetary contribution at the time the strata certificate is issued.
- 17 Deferred payment arrangement for subdivision
- (1) For the purposes of this Determination, a deferred payment arrangement in relation to the payment of a monetary contribution for a subdivision is an arrangement described in this clause.
- (2) A deferred payment arrangement is made, in relation to a subdivision, if a deed of charge is executed by the owner of the land and the Minister, and that deed;
 - (a) grants the Minister a charge over the land to which the development consent for the subdivision relates, and
 - (b) Is generally in accordance with the Memorandum of Deed of Charge Standard Terms and Conditions, executed by the Minister and registered by the Registrar-General, and
 - (c) is registered on the title to the land.

12.11,2014

 - is for 100% of the monetary contribution (or any contribution amount referred to in clause 19, 20 or 21) at the time it becomes due, and
 - (III) the bank guarantee provides that the Minister may call upon the bank guarantee (in full or in part) in the event of a failure to pay the monetary contribution, or any contribution amount, at the time it becomes due.
- 18 When a monetary contribution must be paid if deferred payment arrangement in place

If a deferred payment examplement in relation to a monetary contribution for subdivision is in force, a separate amount is payable in respect of each lot or strata lot in the subdivision (the contribution amount calculated in accordance with clause 19, 20 or 21) and must be paid:

- before the end of 3 years from the date of issue of the subdivision certificate or strata (a) certificate that relates to that lot or strata lot, or
- at least 21 working days before the lot or strate lot is first transferred (following its creation), (b) whichever is the earlier.
- 19 Amount payable in respect of each lot in subdivision - deferred payment arrangement
- The contribution amount that is payable in respect of a lot in a subdivision (other than a (1) subdivision to which clause 20 or 21 applies) for which a subdivision certificate has been issued is to be calculated, as at the date of payment, in accordance with the following formula:

\$CA_o = L/LT x NDA x \$C_o

where:

SCA. is the contribution amount payable for the lot

Lis the area (in hectares) of the lot

- LT is the total area (in hectares) of the lots to which the subdivision certificate relates
- NDA is the net developable area for the subdivision
- is the amount in dollars of the contribution rate, applicable at the date of payment, for \$CR the subdivision (as provided by clauses 7 and 8)
- (2)If the subdivision certificate referred to in subclause (1) is a subdivision certificate for a staged subdivision (as referred to in clause 15 (2)), the net developable area for the subdivision is to be calculated:

12.11.2014

- (a) as if the subdivision of land to which the subdivision certificate relates comprised the entire subdivision authorised by the relevant development consent, and
- (b) on the basis that the net developable area does not include the area of any "transitional lot" in the plan of subdivision to which the subdivision cartificate relates (in which case a reference to a lot in subclause (1) does not include a reference to a transitional lot).

A "transitional lot" is a lot in the plan of subdivision to which the subdivision certificate relates that may be further subdivided in accordance with the relevant development consent.

- (3) A separate contribution amount is not payable in respect of a lot comprising a road, even though the area of the road is included in the calculation of the net developable area for the subdivision and is taken into account in calculating the contribution amounts that must be paid in respect of other lots in the subdivision. (Accordingly, a reference to a lot in subclause (1) does not include a reference to a lot comprising a road.)
- 20 Amount payable in respect of sech strate with a strate subdivision deferred payment strangement

The contribution amount that is payable in respect of a strate lot in a strate subdivision for which a strate certificate has been issued is to be calculated, as at the date of payment, in accordance with the following formula:

\$CA. = U/UT x NDA x \$G.

where:

\$CAp is the contribution amount payable for the strata lot

- U is the unit entitlements of the strata lot
- UT is the total (accregate) unit entitlements of all strate lots in the strate subdivision
- NDA is the net developable area for the strata subdivision
- \$C_R is the amount in dollars of the contribution rate, applicable at the date of payment, for the strata subdivision (as provided by clauses 7 and 8)
- 21 Amount payable in respect of a lot in a community title subdivision defended payment arrangement
- (1) This clause applies to a tot in a subdivision of land procured by the registration of any of the following plans of subdivision within the meaning of the Community Land Development Act 1989 (and in respect of which there is a deferred payment arrangement in force):
 - (a) community plan,
 - (b) community plan of subdivision,
 - (c) neighbourhood plan,
 - (d) neighbourhood plan of subdivision.
 - (e) precinct plan,
 - (f) precinct plan of subdivision.

12,11,2014

(2) The contribution amount that is payable in respect of a lot in a subdivision of land to which this clause applies (and for which a subdivision certificate has been issued) is to be calculated, as at the date of payment, in accordance with the following formula:

SCA. = U/UT x NDA x SC.

where:

SCA. is the contribution amount payable for the lot

U is the unit entitlements of the lot

UT is the total (aggregate) unit entitlements of the lots in the aubdivision

NDA is the net developable area for the subdivision

\$C_R is the amount in dollars of the contribution rate, applicable at the date of payment, for the subdivision (as provided by clauses 7 and 8)

- (3) A separate contribution amount is not payable:
 - (a) In respect of a lot shown in a community plan as community property, a lot shown in a neighbourhood plan as neighbourhood property and a lot shown in a precinct plan as precinct property, or
 - (b) in respect of a lot comprising a road,

even though the area of such a lot is included in the calculation of the net developable area for the subdivision and is taken into account in calculating the contribution amounts that must be paid in respect of the other lots in the subdivision. (Accordingly, a reference to a lot in subclause (2) does not include a reference to lot referred to in paragraph (a) or (b)).

- (4) If the subdivision certificate referred to in subclause (2) is a subdivision certificate for a staged subdivision (as referred to in clause 15 (2)), the net developable area for the subdivision is to be calculated:
 - (a) as if the subdivision of land to which the subdivision certificate relates comprised the entire subdivision authorised by the relevant development consent, and
 - (b) on the basis that the net developable area does not include the area of any "transitional lot" in the plan of subdivision to which the subdivision certificate relates (in which case a reference to a lot in subclause (2) does not include a reference to a transitional lot).

A "transitional lot" is a lot in the plan of subdivision to which the subdivision certificate relates that may be further subdivided in accordance with the relevant development consent.

22 Payment of monetary contribution where subdivision and other development on same land

If a single development consent authorises both the subdivision of land and the carrying out of subdivision work on that land, the monetary contribution is required to be peid before the issue of the subdivision or strate certificate (or in accordance with clause 18), rather than before the issue of a construction certificate in relation to the work (even if that occurs first).

12,11,2014

- 23 Payment of monetary contribution where different kinds of development on different parts of land
- (1) This clause applies if:
 - a single development consent authorises different kinds of relevant development on different parts of the land to which the development consent relates, and
 - (b) this Datermination would otherwise require a monetary contribution to be paid at different times in respect of each kind of development.
- (2) The special infrastructure contribution for relevant development in any such case (if made as a monetary contribution) is to be paid:
 - at the earliest time by which payment would be required to be made for any of the different kinds of development, or
 - (b) as provided by subclause (3).
- (3) Separate monetary contributions may be made for each kind of relevant development as if, instead of a single development consent, a separate development consent had been granted for each kind of development. Accordingly, the monetary contributions are payable at the various times provided by this Determination in relation to the different kinds of development concerned.

24 Reduction in contribution if made by 1 July 2011

If a special infrastructure contribution is made as a monetary contribution that is paid before 1 July 2011, then the amount that would otherwise be payable under this Determination is reduced by one third.

- 25 Special Infrastructure contribution work ann-kind agreement
- (1) For the purposes of this Determination, a special infrastructure contribution works-in-kind agreement is an agreement that meets the requirements set out in this clause.
- (2) A special infrastructure contribution works-in-kind agreement is an agreement between the Minister and the developer for the carrying out of works to provide an item of infrastructure specified in Appendix 1 to this Determination, or for the dedication or other provision of land for the purpose of any such infrastructure, in lieu (in part or in whole) of the payment of a monetary contribution for the development concerned.
- (3) A special infrastructure contribution works-in-kind agreement, in relation to the carrying out of works, is to:
 - specify or acknowledge the monetary contribution that would otherwise be payable for the relevant development, and
 - (b) describe the works that are to be carried out by or on behalf of the developer to contribute to the provision of a specified item or items of infrastructure, and

- (c) specify the attributable cost of the item or items of infrastructure and provide for the adjustment of that cost due to inflation or defiation, and
- (d) provide that the maximum amount of the liability to make the special infrastructure contribution that may be discharged by the carrying out of the works is not to exceed the attributable cost of the item or items of the infrastructure, and
- (e) specify times by which specified stages of the works involved must be completed ("key project milestones"), and
- (f) provide for the nature or form of security to be provided by the developer for a failure to meet obligations with respect to the special infrastructure contribution.
- (4) A special infrastructure contribution works-in-kind agreement, in relation to the dedication or other provision of land, is to:

 - (c) specify the manner in which the value of that land is to be calculated, and
 - (d) provide for the nature or form of security to be provided by the developer for a failure to meet obligations with respect to the speciel infrastructure contribution.
- (5) In this clause, attributable cost, in relation to an Item of Infrastructure, means the amount specified in Appendix 1 to this Determination for that item.
- Part of special infrastructure contribution is for matters referred to in section 94ED (1) (d) of Act

For the purpose of section 94EE (3A) of the Act:

- no part of the special infrastructure contribution required to be made by this Determination is for the provision of infrastructure by a council, and
- (b) no part of the special infrastructure contribution required to be made by this Determination is for matters specified in section 94ED (1) (d) of the Act.

Note. The matters specified in section 94ED (1) (d) of the *Environmental Planning and Assessment Act 1979* are the carrying out of any research or investigation, preparing any report, study or instrument, and doing any other matter or thing in connection with the exercise of any statutory function under the Act, by the Minister, the corporation, the Director-General or the Department.

Important information

Who is protected by a clearance certificate?

A clearance certificate states whether there is any land tax (including surcharge land tax) owing on a property. The certificate protects a purchaser from outstanding land tax liability by a previous owner, however it does not provide protection to the owner of the land.

When is a certificate clear from land tax?

A certificate may be issued as 'clear' if:

- the land is not liable or is exempt from land tax
- the land tax has been paid
- Revenue NSW is satisfied payment of the tax is not at risk, or
- the owner of the land failed to lodge a land tax return when it was due, and the liability was not detected at the time the certificate was issued.

Note: A clear certificate does not mean that land tax was not payable, or that there is no land tax adjustment to be made on settlement if the contract for sale allows for it.

When is a certificate not clear from land tax?

Under section 47 of the *Land Tax Management Act 1956*, land tax is a charge on land owned in NSW at midnight on 31 December of each year. The charge applies from the taxing date and does not depend on the issue of a land tax assessment notice. Land tax is an annual tax so a new charge may occur on the taxing date each year.

How do I clear a certificate?

A charge is removed for this property when the outstanding land tax amount is processed and paid in full. Payment can be made during settlement via an accepted Electronic Lodgement Network or at an approved settlement room.

To determine the land tax amount payable, you must use one of the following approved supporting documents:

- Current year land tax assessment notice. This can only be used if the settlement date is no later than the first instalment date listed on the notice. If payment is made after this date interest may apply.
- Clearance quote or settlement letter which shows the amount to clear.

The charge on the land will be considered removed upon payment of the amount shown on these documents

How do I get an updated certificate?

A certificate can be updated by re-processing the certificate through your Client Service Provider (CSP), or online at www.revenue.nsw.gov.au.

Please allow sufficient time for any payment to be processed prior to requesting a new version of the clearance certificate.

Land value, tax rates and thresholds

The taxable land value shown on the clearance certificate is the value used by Revenue NSW when assessing land tax. Details on land tax rates and thresholds are available at www.revenue.nsw.gov.au.
